

	7030 N. Austin Ave.—Niles, Il. 60714 New Equipment Ph. 847-588-3170 Parts Ph. 877-312-4822 Fax 847-588-3173
	Specializing in HVAC Solutions for the cannabis market. Compressor wall technology, unit packaged fluid coolers, sophisticated controls including compressor staging.
	High Performance Plate Heat Exchangers
	Quick Ship! Flexible Connectors; Suction Diffusers; TD Valves; Check Valves; Strainers; Balancing Valves; Butterfly Valves; and ASME Bladder Type and WPS Plain Steel Tanks
	Radiant Ceiling Panel Systems including Extruded; Modular; Diffuser and Perforated
	Cooling Towers; Closed Circuit Fluid Coolers; Thermal Storage Systems; Evaporative Condensers
	Wall Mounted Heating and Cooling Units in 1 through 6 tons, configured in Air Conditioning, Heat Pump, and Gas/Electric.
	Modular Water Cooled and Air Cooled Chillers 30 to 840 Tons Through a Combination of 30, 50, 70 Ton Modules
	Manufacturers of Industrial Grade Custom Air Handling Units Featuring Fan Matrix and Balance Stream Fans, Roll Formed Panels, Thermal Break Construction
	Conventional and Geothermal Rooftop, Make-Up Air, Console, Vertical Stack, and Horizontal Water Source Heat Pumps
	Sanitary hot water and energy efficient heat pumps capable of heating water as high as 185 F down to 0 F, 160 F to -10 F, and 140 F to -15 F.
	Delta-Therm is an American manufacturer of engineered heat tracing solutions. Providing systems that are practical, cost-effective, compliant and fully supported.
	Electric - Gas Fired - Gas to Steam, Steam Injection - Ducted, Steam to Steam 'Ultra-sorb', 'Rapid-sorb' Steam Distribution Panels, New High Pressure Steam Atomizing System
	Open and Closed Loop Solutions Including: No-Salt Conditioner, BacteriaShield UV, Skid Mount or Component Systems for Cooling Tower and Boiler Systems
	Automatic Flow Control Valve and Valve Packages; 'Quickset' Manual Valve Packages; Pressure Independent Control Valves
	Offering an innovative shell and tube heat exchanger with an exceptionally high heat transfer coefficient for industrial fluid cooling and air conditioning
	Self Balancing Air Terminals - Featuring variable orifice plate technology and ITAC - Intelligent Air Control-™ - Units arrive factory commissioned and pre-configured
	High and Low Pressure External and Internally Pressurized Expansion Joints; Pack Type; Ball Joints
	Modular High Rise Stack, Horizontal, Vertical, High Performance and Belt Drive Fan Coils
	Custom Built Galvanized, Aluminum and Stainless Steel — Commercial / Institutional Air Handling Systems Offering Factory Assembled and Site Built Units
	Vibration and Noise Control Products; 'Floating' Sound Isolation Floor Systems;
	Air and Water Cooled Chillers, Custom Packaged DX Rooftop Units w/ Multi Zone Options, DOAS Units
	Industrial Liquid Filtration and Separation Equipment — Centrifugal Separators and Sand Filters
	Dessicant Dehumidification Equipment delivering the most consistent and predictable grow room environments for producing high-quality yields in the increasingly competitive cannabis industry.
	RGF Commercial Air Purification products provide innovative solutions to challenging Indoor Air Quality (IAQ) concerns in commercial buildings. Utilizing RGF's proprietary PHI
	Advance Dehumidifying Heat Recovery Systems for Indoor Pools and Dehumidifiers for Commercial and Industrial Applications Featuring WebSentry Technology
	Passive House and Well Building Certified DOAS Units, Active and Passive Chilled Beams, Integrated climate beam Complete with Cooling, Heating and Ventilation Functions
	Positive Pressure Stack Systems — Air Insulated, Material Insulated and Refractory Lined Stacks; Hi Temperature and Engine Generator Exhaust.
